OUR MISSION

Your design. Our expertise.

Established in Sydney, Australia in 1991, ISC Sport was formed with a dream of providing the highest quality custom sportswear to teams at all levels. Knowledge and expertise accumulated over 30 years' working with teams in Australia and globally enables us to provide our partners and teams with technical performance garments of unparalleled quality.

We have representatives based in all states across Australia. They work closely with each partner to understand their requirements and are there to support you throughout the process. A group of professional artists and designers will bring your designs to life. We believe no detail is too small. Close attention is paid to fabrication, each embellishment and accessory.

Additionally, the online Customiser on our website gives you the tools to design your own team kit. Select from a large range of garments across multiple codes to start designing – from colour combinations to logo applications.

At ISC Sport we are passionate about sport, our teams and delivering a complete experience.

Our goal is to help our teams achieve their goal, by giving them the service and products that focusses on their performance.

#MadeByISC

WE'RE HERE TO HELP

Custom Teamwear is what we do. From first point of contact to hitting the field in your new team kit, our team of experts will guide you every step.

TRUSTED BY

RUGBY LEAGUE

JERSEYS

On field playing jersey replicating the one the professionals wear in the biggest games. Fully sublimated in our performance fabrics.

Choose from one of our extensive library of designs or create your own.

PRO OR PERFORMANCE

Two versions of the product to meet your specific needs.

Pro: A more tapered cut and featuring mesh panelling.

Performance: A slightly more 'everyday' fit but still with the same key elements suitable for top level performance.

FEATHER
FABRIC TECHNOLOGY

24	49 - 51"	123 - 128cm	41 - 43"	103 - 108cm	51 - 53"	129 - 134cm

OUR SIZING GUIDE IS BASED ON BODY MEASUREMENTS, NOT ACTUAL GARMENT FIT.

HOW TO MEASURE:

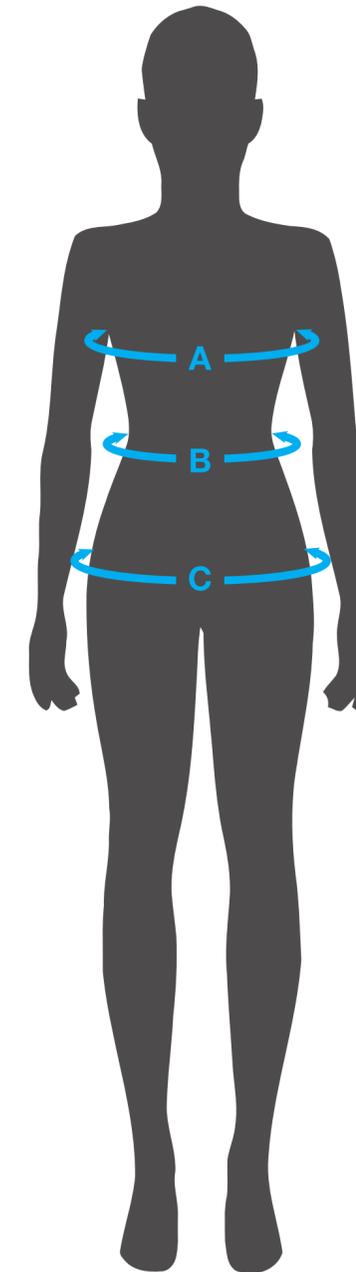

BUST: THIS MEASUREMENT SHOULD BE TAKEN BENEATH YOUR ARMPITS, AROUND THE WIDEST PART OF YOUR BUST.

WAIST: PUT THE TAPE AROUND YOUR NATURAL WAISTLINE, WHICH SHOULD BE CLOSE TO YOUR BELLYBUTTON.

HIP: THE HIP SHOULD BE MEASURED AROUND ITS FULLEST PART (ABOUT 8 INCH. BELOW YOUR WAIST).

FABRICS

High-performance mesh which assists in wicking moisture away from the body to maximise comfort. Light weight and breathable, it helps keep the body at an optimum temperature no matter how intense your work out.

Unparalleled weight to strength ratio. Constructed using a high tensile polyester yarn more traditionally used in the automotive industry due to its exceptional strength. Feather has a higher 'burst' strength than any of its competitors, is soft to the touch and provides just the right amount of stretch and recovery.

Mid-weight, knitted fabric with traditional twill appearance. Hard wearing construction.

Axis provides optimum comfort balanced with an excellent weight to strength ratio. The soft handle and sleek appearance help make this garment the closest thing to what your heroes are wearing on game day.

Quick drying and ultra-light. Coolweave enables you train at your best in maximum comfort. Tightly woven 100% Polyester construction.

Light-weight, eyelet mesh with subtle open construction to allow for breathability. Perfect for intense training when paired up with Airtex.

This fabric has an exceptionally soft handle and structured pique appearance. The anti-microbial finish is proven to reduce lingering odours often associated with polyester fibres. Easy care and easy wear.

Double-coated waterproof shell which keeps you dry and cool, even in the harshest conditions. The interior of the fabric is laminated with an impenetrable film, whilst the DWR coating promotes water run-off.

Athletic micro-fleece which offers an excellent balance between warmth and weight. With a soft handle and athletic appearance it is the ultimate sports staple.

MICROSTRETCH
FABRIC

Lightweight woven fabric with added elastane for incredible 4-way stretch. Quick drying and breathable.

POLYSPANDEX
FABRIC

Knitted, compressive fabric with 4-Way stretch. Added spandex for stretch and shape retention. Breathable and quick drying.

COTTON DRILL
FABRIC

Heavy duty woven twill offers ultimate strength and durability. Cotton ensures that unmistakably traditional feel.

POLYESTER DRILL
FABRIC

Hard wearing twill offers unrivalled strength and structure. Can be sublimated or dyed.

YARN DYED
FABRIC

The yarn is pre-dyed before being woven together. This allows for additional customisation and personalisation. Heavy weight poly-cotton yarn provides a traditional appearance and a hard wearing finish.

PBT - POLYESTER
CHLORINE RESISTANT

It's high stretch polyester fabric that is perfect for swimwear. Due to the yarn it doesn't breakdown in chlorine or salt water so has excellent durability. Ultra-quick drying soft to the touch.
